WAITING FOR JAPAN

Best Able to Supply Troops for Relief of Pekin.

MILITARY PLANS OF UNITED STATES

Secretary Root Confers With Secretary Hay.

KEMPFF'S LATEST DISPATCH

A brief line from Admiral Kempff telling of the personnel of the American contingent of the Pekin force is all that has come the government from China in forty-eight hours. The following is the text of this

"CHEFOO, July 4, 1900. "Secretary of the Navy, Washington, D. C. "Myers of Oregon commands force at Pekin. Capt. Hall and Dr. Lippitt are also there.

KEMPFF."

The inference is that absolutely nothing has happened within the territory of Admiral Kempff or Consul General Goodnow. The allied forces on the Pel Ho lie helpless to advance, awaiting reinforcements to begin the march to Pekin. By this time the 9th Regiment from Manila, under com-mand of Col. Liscum, should have joined mand of Col. Liscum, should have joined them, and at least some part of the 15,000 Japanese troops reported ready for embarkation some days ago should have crossed the inland sea and the Gulf of Pechili to Taku. The trouble is that the latest cablegrams are at least a day old, and some are two, owing to the interruption of the land line north of Shanghai and west of

view of the native reports that some of the legationers were alive up to last Saturday or Sunday, there is a renewal here of the desire to have some start made toward Pekin at the earliest possible moment in the hope that the relief column may still arrive in time to save some lives.

Ever it is said that as far as the United States is concerned, the government is doing all it can to meet the present emergency; it cannot now get reinforcements on the scene in China, no matter how well disposed, in time to be of service in this relief movement. It is said that with the single exception of Russia, all of the European governments are in a position similar to our own. They cannot get their troops forward in season

Waiting for Japan.

Consequently our government, and, it is believed, all of the European governments, are looking to Japan as the power nearest the scene and best capable of responding to the demand for troops. It has been reported from European capitals that Japan has been paralyzed in her good intentions has been paralyzed in her good intentions by Russian jealousy. If this is so, then our government is misinformed. It has assurances from both of these governments directly to the contrary.

In fact, it is in large part owing to the efforts of the State Department that the great powers have signified their willingness to limit their designs in China to a line that would avoid arousing jealousies and greed.

The American Policy. line upon which the United States

government is proceeding is in a measure disclosed in the Berlin cablegram of last night touching the receipt there of a dispatch presenting the United States' policy as to China. That note has been presented as to China. That note has seen presented to each of the European chancellories, as well as to the Japanese foreign office, and so far it has been well received. It amounts practically to an invitation to these powers to adopt for themselves the policy so frankto adopt for themselves the policy so frank-ly laid down by the United States govern-ment, and the hope has been that it will be accepted in the spirit in which it is offered. accepted in the spirit in which it is observed, so that, laying aside questions of selfish ad-vantage, the forces of civilization may move together to succor the lives of the christians in China. The note correctly states that the United States will do its

states that the United States will do its share toward protecting foreign life and property in China, and particularly in forwarding an international military expedition against Pekin.

Secretary Root was in conference.

Secretary Root was in conference with Secretary Hay for a short time at the State Department this morning, and it is understood that the purpose of these conferences is to arrange for the redemption of this promise relative to military aid. It is not known that any further orders have been issued to our troops; in fact it is declared at the War Department that the last order in that line was for the dispatch to mitted that preparatory measures are being taken that will admit of a considerable in-crease of the United States force in China in course of time if such an increase is de

Secretary Root at the White House. Secretary Root also went to the White House and remained in the telegraph roombetter known as the war room-for more than an hour. In this room is located the long-distance telephone connected with Canton. It was stated that Mr. Root went to the White House to look over telegrams. There was more than the usual reticence as to what class of telegrams he was looking over. It happens that many kinds of telegrams were received at the White House today. Some were official and a great many Press dispatches from China Kansas City and all points were going into the White House this morning.

There is a special wire from the White House to Canton, and an easy and quick way of communication with the President would be by this routs.

Capt. Myers.

Capt. John T. Myers, or "Jack" Myers, who, according to Admiral Kempff's dis-patch, commands the legation defenders at Pekin, was born in Germany; was appointed from the state of Georgia, entering the Marine Corps in September, 1887. He is the reputed author of the famous satirical poem, "Hoch der Kalser," which involved Capt. Joseph B. Coghlan in so much diffi-Capt. Joseph B. Coghlan in so much diffi-culty. He was attached to the flagship Baltimore, and was afterward assigned to duty with the marines aboard the Oregon.

Capt. Hall. Capt. Newt H. Hall, U. S. M. C., who is ntioned in Admiral Kempff's cablegram as being with the marine guard, was born in and appointed from Texas. He graduated at the Naval Academy in the class of '95 with Ensign Worth Bagley and Lieut. Breckinridge, both of whom lost their lives in the war with Spain. He was stationed at the naval station, Cavite, P. I., befor being detailed for duty with the first ma-rine detachment that went into China.

Dr. Thomas M. Lippitt, assistant surgeon, who is also reported to be with the beleaguered legation party at Pekin, was born in Berryville, Va., in 1873. He was commissioned an assistant surgeon in the navy June 27, 1898, and served on the hospital ship So'ace during the Spanish war. After the war he was attached to the flag-ship Baltimore on the Asiatic station and has since served on the Oregon and then on the Newark, going up to Taku with the marine detachment aboard the last named.

Pushing the Good Roads Movement.

PORT HURON, Mich., July 5-The closing session of the first international good roads congress was held yesterday and steps taken toward effecting a permanent national or international good roads assoclation. Martin Dodge, director of the United States good roads inquiry department; Andrew Pattula, president of the On ment, Andrew Pattua, president of the On-tario Good Roads Association, and Carl Moore of St. Louis were appointed a com-mittee to confer with the executive com-mittee of the Interstate Good Roads Asso-ciation for such purposes.

A Maritime Straw. From the New York Press.

A steamer plying between Boston and the Philippines has broken the record with the largest cargo of hem ver brought to this country. This is on the things trade with the islands is to mean.

MENTS OF INFANTRY. The Second, Fifth and Eighth Will Be Assembled and Transported to New

York as Soon as Possible.

RETERN ORDERED OF THREE REGI-

As a result of recent consultations by the commanding the army, and Maj. Gen. Wood, commanding the division of Cuba, orders were today issued at the War Department for the return to the States from Cuba of the 2d, 5th and 8th Regiments of Infantry. These troops will be mobilized at the nearest available points of debarkation at once and will be transported as seen as timecessary transportation arrangements can be perfected. The

troops are distributed as follows: Second Infantry-Headquarters. Companies B, D, I and M, at Pasa Caballos; Company A, at Sancti Spiritus; Company

Company A, at Sancti Spiritus; Company C, Sagua la Grande; Company K, Trinidad; Company L, Caibarien. Companies E, F and H of the 2d Infantry are at Fort Thomas, Ky., and Company G is at Columbus Barracks, Ohlo.

Fifth Infantry—Headquarters, Companies A, C, F and G are at Santiago; Company B, at Baracoa; Company D, at El Caney; Company E, at San Luis; Company H, at Guantanamo. Companies I, K, L and M of the 5th Infantry at Fort Sheridan, III.

Eighth Infantry—Headquarters, Companies A, B, C, D, E, F, G and H are at Havana; Companies I, K, L and M of the 8th Infantry are at Fort Snelling, Minn.

The troops in Cuba ordered home are to start "immediately," but inasmuch as the transports that will be used in the movement are now in New York, it will hardly be possible for them, under the most favorable circumstances, to start for home within ten days or two weeks, at least. They will all be brought to the port of New York, will all be brought to the port of New York, will all be brought to the port of New York, will all be brought to the port of New York, will all be brought to the port of New York, will all be brought to the port of New York.

able circumstances, to start for home within ten days or two weeks, at least. They will all be brought to the port of New York and their future stations will be determined by the time they reach that port.

The recall of the Cuban troops is the first step in the program of the War Department for the replacement of the volunteer army in the Philippines with troops of the regular establishment. It is intended to begin the homeward movement of the volunteers in the Philippines in November next, and to have the majority of the regular troops destined to that country there before the volunteers start home. The deplorable state of affairs in China has undoubtedly caused the military authorities piorable state of affairs in China has un-doubtedly caused the military authorities to hasten the departure of the outgoing troops as much as possible with a view of utilizing them for the protection of Ameri-can interests in China, in case it is found necessary to divert them from their origi-nal destination—Manila.

A SHADE OF DIFFERENCE

WEATHER ONE DEGREE COOLER THAN IT WAS YESTERDAY.

The Uninitiated Loth to Grant the One Point-Comparisons With Other Places.

The cruel announcement comes from th United States weather bureau that there is nothing in sight-absolutely nothing-to bring about a cessation of the hot wave at present diligently engaged in scorching Washington. The city is sweltering again today under a July sun of exceptionally torrid intensity. The asphalt pavements, cooked beneath the torrid rays into a softened condition, send back in defiance to the sun, but to the added discomfort of hu-

manity, dancing waves of heat. From above and from under foot people From above and from under loot people in town today have suffered from a heat which has seemed at times almost unbearable. Old Boreas, with his accustomed contrariness, has retired to his caverns to horde up all the wind of creation. The blustering blasts which would prove so acceptable at this time will be set loose in ceptable at this time will be set loose in February and March next to complete

the freezing-out of the population. Students of weather have discovered there

order in that line was for the dispatch to Manila of the 15th Infantry. But it is adrain and wind. In a sense the gods have formed a trust.

Old Probs Does Not Glost. While as stated above, the prognostication of a total absence of relief condition was given in a callous manner by officials cooled by electric fans, far be it from "Old Probs" to gloat. He never indulges to such an extent, and to show his kindness of heart, he gave the information to panting, perspiring and profane humanity today the consolation of knowing that at 2 o'clock this afterneon it was one degree less bot this afternoon it was one degree less hot than at the same hour on yesterday. Ninety-five at 2 p.m. today, however, seem-

Ninety-five at 2 p.m. -today, however, seemed to the uninitiated just about as warm as the 96 of the glorious Fourth.

Taking the statement of the weather bureau on the whole there was more comfort still in it, for it was announced that in Baltimore today the temperature was the same as in Washington. At 8 o'clock tais morning both clites reported 84 degrees—exceptional for such an early hour. These were the hottest clites in this section, however. Yesterday the temperature reached a maximum here of 96, while the highest along the middle Atlantic section was 98, recorded at Norfolk. The hot wave came from the far west, where it stopped for ten days after a trip over the Pacilic. Its journey eastwardly was leisurely made, and it is feared the departure will be equally tardy. It will be several days yet at best before the maximum will again fall below the 90 mark.

A Comparative View.

A Comparative View.

More comfort still was contained in the result of a research into the records of the past. It was revealed that the record for thermometrical height in July was reached thermometrical height in July was reached July 12, 1887, when the normal figure of 103 was recorded. So it will be seen the weather is yet far from record-breaking, either in intensity or duration. July, 1898, was one of the hottest months ever experienced in the capital city. There were sixteen days out of the thirty-one when the thermometer recorded a maximum of more than 90 degrees. A temperature of 101 was reached July 2 of that year. Last July, however, there were but eight days of 90 degree weather, the highest being 94.

Interest in Golf Struggle Increases. GARDEN CITY, N. Y., July 5 .- As the ranks of the competitors are being thinned daily in the match play rounds of the amateur golf championship, interest in the ournament increases fourfold. The course was in splendid condition when play began this morning. Eight men divided into four pairs took part in the third round of thirty-

six holes match play in the following or der: Travis agt. Hitchcock, Reid agt. Locked, Stuart agt. Douglas and Hollins agt

Harriman. On his play of yesterday, when he estab-On his play of yesterday, when he estab-lished a new record of seventy-eight for the eighteen-hole course, Douglas, the ex-cham-pion, is favorite in the friendly betting which is going on among the spectators. Harriman and Travis are the second choice

Harriman and Travis are the second choice and Lockwood comes next.

The four young players, Reid, Hollins, Stuart and Hitchcock are not considered good enough to win out, but the uncertainty of the game leaves it very open at this stage for one of the juniors to run right through.

Clery and Hart Join Forces. LONDON, July 5.—The war office has re-ceived the following dispatch from General

"STANDERTON, July 5.-Clery, from Heldelberg (all in the Transvaal). Met with but slight opposition during the march."

WITHDRAWN FROM CUBA DAMAGES AND LOSSES FINANCE AND TRADE

The Construction Through Arthur Place Basis of Statement-Capt. Gaillard's Estimate.

ALONG LINE OF SEWER.

Capt. D. D. Gaillard, assistant to the Engineer Commissioner of the District, Captain Beach, has transmitted to the Com missioners a statement relating to dam ages and losses alleged to have been sus-tained in the construction by the District of the sewer through Arthur place. The damages relating entirely to injury to buildings, states Captain Gaillard, were based upon very careful inspections, made befor and after injury, by Mr. C. W. Somerville an assistant inspector of buildings, and they aggregate \$13,388.10. The property owners found to have sustained injury to their property were: Joseph G. Hester, \$694 Caroline J. Harper, \$965; Edward W. Byrn

Caroline J. Harper, \$065; Edward W. Byrn, \$415; Candace Crawford, \$10,434; District of Columbia (Arthur School building). \$81,60; Raffael Blasi, \$261,50; Clementine N. Bartlett, \$50; Michael Toscano, \$46; Frank Massino, \$95, and Mamie E. Norment, \$346. In the case of Mrs. Candace Crawford, it is stated, she was ordered by the inspector of buildings to vacate her house the 30th of last September, and she promptly obeyed. Her house has been vacant ever since, is now unfit for occupancy, and it is believed it will have to be torn down and rebuilt. If this is done, states Capt. Gaillard, it seems obvious that the new building cannot be occupied before the first of next November, and he recommends that whatever monthly damages the Commissioners. ever monthly damages the Commissioners see fit to award Mrs. Crawford for loss to her business should extend from Octo-ber 1, 1899, to October 31, 1900, inclusive.

Tenants of Damaged Premises. S. Umbernour are tenants of premises damaged by the construction of the sewer. Because of such injury their boarders became frightened, vacated their rooms and did not return up to the time the work through Arthur place was completed. The premises were considerably cracked by the construction of the sewer, Capt. Gaillard found, and as these cracks developed quite rapidly, he thinks the ordinary tenant would have been justified in believing that a personal risk existed in remaining in the houses, although at no time did the municipal authorities apprehend that the safety of the buildings would be endangered, and so informed the claimants. Mrs. Crawford places her loss because of the vacation of her house at \$250 a month, while M. Duncan places his at 130 in all, and S. Umbernour at \$125 per month for three and two-thirds months.

at \$125 per month for three and two-thirds months.

Miss Kate Eyre also claimed damages, she being a tenant of 204 Arthur place. There is no claim for damages to this building, states Capt. Gaillard, and he does not see how the District could properly award Miss Eyre damages without establishing a precedent which might apply in case of any sewer constructed in any of the streets of the city. Because no claim has been made for damages to the building occupied by her. Capt. Gaillard says, it is fair to presume her roomers could not have entertained a reasonable fear as to their personal safety during the operations in Arthur place.

He says some of her boarders left because of the condition of the street, and Capt. Gaillard says, while he does not doubt her statement, nor can he deny that the street was badly torn up and the local conditions rendered very unattractive, yet practically the same annoyance and heavershase.

rendered very unattractive, yet practically the same annoyance and inconvenience existed in front of every building on the south side of F street during the construction of the large sewer there several years ago, and must exist in the future, he thinks, during the construction of any similar sewer.

To award damages for inconvenience or

annoyance during the prosecution of municipal work would, he believes, be tanta-mount to a prohibition of its execution. If

mount to a prohibition of its execution. If all the losses are allowed except in the case of Miss Eyre, the total amount will be, he estimates, \$17,226.43.

Congress at its recent session appropriated the sum of \$18,000 to be paid those persons found by the Commissioners to have suffered injury because of the construction of this sewer, the Tiber creek and New Jersey avenue high-level intercepting sewer, and it is understood that the Commissioners will refer the papers in the case to their and it is understood that the Commission-ers will refer the papers in the case to their attorney, Mr. A. B. Duvall, for the purpose of ascertaining whether the claimants named are those persons legally entitled to receive the amounts awarded.

PLANK AGAINST THE TRUST. All Their Products to Go on the Free

KANSAS CITY, July 5.-The most interesting incident of today's discussion occurred over a plank offered by Mr. Ball of Texas, declaring that all articles manufactured by trusts should be put on the tariff free list. Mr. Newlands of Nevada opposed the declaration on the ground that "it was covered by the general plank." Mr. Ball declared Mr. Newlands' position to be undemocratic, and he asserted that Mr. Newlands was anything but a democrat. Newlands replied that he had never been anything but a democrat until Mr. Cleveland had, by his conduct, driven him out of the party. The committee decided to insert the plank.

Railroad Seeking Sea Coast Terminus. KNOXVILLE, Tenn., July 5.-It is learned from a reliable source here that the Ten-nessee Central railroad is negotiating for the purchase of the Knoxville and Bristol railroad, and will finish the construction of this road from Knoxville to Bristol. The Illinois Central railroad is considered to be backing the Tennessee Central and seek-ing an eastern seacoast outlet and this most recent move to acquire the Knoxville and Bristoi furnishes further ground for such belief. The Illinois Central will connect belief. The Illinois Central will connect with Tennesse Central at Clarksville.

Gov. Roosevelt Homeward Bound. HANNIBAL, Mo., July 5.—The special train carrying Gov. Theodore Roosevelt home from the Rough Rider reunion arrived at Hannibal early today. A large crowd greeted the governor, and close at-tention was given to his brief address. At the conclusion of the address the train crossed the Mississippi river into Illinois. Speeches will be made today at Quincy, Galesburg, Mendota, Aurora and possibly one or two other points.

PETITION IN BANKRUPTCY.

Samuel Bieber's Application Filed in Court Today.

Mr. Samuel Bieber, a well-known resident of this city, and who, among other enterprises, is engaged in the retail clothing and furnishing business and the retail sho business on 8th street southeast, late this afternoon filed a petition in voluntary bankruptcy. His summary of debts is stated to be \$130,846.53.

His assets, including real estate, cash on hand, bills, promissory notes and securities, stock in trade, household goods, debts due on open accounts and open accounts, so it is stated, foot up to \$79.820.82.

Mr. Leon Tobriner, attorney for Mr. Ble-ber, made the following statement to a

Several years ago Mr. Bleber entered into an agreement with the firm of J. K. Murphy by which he undertook to furnish to such firm the financial backing for the construction of what is known as the Tiber creek intercepting high level sewer. His present financial embarrassment is due to the fact that he incurred obligations to the amount of about \$70,000 in this enter-

prise.
"Mr. Bieber's other enterprises have been

"Mr. Bieber's other enterprises have been profitable, and were it not for these indorsements, which are now maturing, and the fact that no profit has, thus far, been derived from the sewer venture, Mr. Bieber would be perfectly solvent.

"The more valuable portion of his property is unincumbered, and it is hoped that the amount realized from this and his other assets will cause but a small loss to his creditors. Owing to the strain upon his nervous system Mr. Bieber has, since his return from Europe some three weeks ago, been confined to his house."

Special Bispatch to The Evening Star. latest appailing news regarding the situakets generally weak in London. Americans declines in prices as compared with our be some liquidation, too, in that market for Berlin account.

In the local stock market-in sympathy with lower London quotations-opening prices, with one or two exceptions, showed declines ranging from 1/2 to 1 per cent. The market, however, quickly developed unexpected firmness, in view of the very unfavorable news from China and the unsettled state of affairs abroad.

seller here today, but it soon developed that the arbitrage brokers were rading both ways in this market, while their transactions were not considered

veloped that the arbitrage brokers were trading both ways in this market, while their transactions were not considered much of a factor either way.

Jersey Central was again today an exceptional feature of strength at the start. Opening up one-half point, at 128½, it soon gained two and one-half points more, on very persistent rumors of accumulation of the stock by strong banking interests, and talk of a conference of capitalists controlling the anthracite railways, to be held within the next few days, to act upon plans expected to be of far-reaching consequences to the "coalers."

Sugar stock opened one-half point below Tuesday's closing figures, at 114½, but the price was soon afterward advanced to 117 on a few buying orders, induced possibly by the bullish talk on the stock in lower Wall street circles, to the effect that the sugar company is making more money, at present prices, than ever before in its history. The rise, however, at this time, is said to have no particular significance, except, perhaps, to show what small buying orders will do in this narrow market, where few stocks are pressing for sale.

The real factor of strength, however, in the market today, and to which all indications pointed in the early trading, was the action taken by the democratic platform committee at Kansas City today in adopting an outright free silver plank.

It was stated in this column, some days ago, that the adoption by the democratic convention of the "16 to 1" theory would give us a good rilly, and, considering the strong adverse news from abroad, the market has about followed that prediction, and the action alluded to above has had a very good effect upon Wall street sentiment generally, the argument, of course, being that the effect of trying to bring life to the free silver corpse will only tend to weaken the democratic candidate, whoever he may be. By noon Jersey Central had scored a further advance of two points, making the total gain 5½ points over Tuesday's closing figures, and most of the active stocks had reg

THE HENLEY REGATTA. Preliminary Heats Were Rowed Yes-

The great English rowing meeting of the year opened yesterday at Henley, with lack of interest and little of the excitement usuhouseboats numbered less than a dozen instead of the usual hundred or more. The town is mourning for the scarcity of visit-ors, while the absence of demand for tickets to the various grandstands, clubs and inclosures proves the lack of society's in-

terest.

The unsettled weather did not help mat-The unsettled weather did not help matters, and withdrawals have reduced the starters in the various races to forty. The few foreign entries were further reduced by the withdrawal of the Berlin Club from the Stewards' challenge cup, while Eton decided not to contest in the Grand challenge cup race. There were thirteen preliminary heats yesterday. For the Diamond challenge sculis H. T. Blackstaffe defeated Preval, a Frenchman.

No Armless Courtship From the Philadelphia Inquirer.

"But," said the soldier lover, as he kissed her good-bye, "suppose I should return maimed, minus both arms, for instance,

He thrust the sealed letter through the window and put down the 2 cents.
"Well, what do you want?" asked the samp clerk, gruffly.
"An automobile, please," he replied sweet-ly.—Philadelphia North American.

wouldn't you hesitate to marry me?"
"I'd marry you at once," she replied. "It
would be useless to prolong our courtship."

DR. GIRDEN ARRESTED.

The Man Accused of Duping Residents of This City. A warrant charging Ludwig Girden with grand larceny was sworn out this afternoon by Detective Miller. The theft of a watch and chain is charged in the warrant. In spector Boardman received information from Baltimore this afternoon of Girden' arrest in that city, and a detective went to Baltimore with the warrant and will make an effort to bring the prisoner here for trial. Complaint was made to the police a

headquarters yesterday afternoon against a man who introduced himself as Dr. Ludwig Girden, a graduate of Vienna, Munich. Augsburg and Heldelberg. He gave the in formation that he was a specialist in conaglous diseases. Charges were against the doctor by John B. Nieren-dorf, a saloonkeeper, at 1213 Pennsylvania avenue northwest; Edward F. Abner of the firm of Abner & Drury, brewers, and Rudolf B. Schwickardi, a clerk in the pen-

the Saks nine yesterday afternoon on the St. Elizabeth grounds by 14 to 7. The game was witnessed by a large gathering. The St. Elizabeth team took the lead from the start and held it throughout. Its opponents failed to do any tallying until too late, but made a big rally in the closing innings. For St. Elizabeth, the pitching of Carl Wahler, the catching and throwing of Sult, the all-around work of Dr. Addison and Dr. Clark and the general batting were
